# Specialty Division **Seat Massage/Heater**

## ***RVing comfort demands are at an all-time high!***

*Our Road Comfort massage/heat products are now available for installation in new or existing travel seating. The hand control wand provides instant access to safety tested massage and heat functions at the touch of a button. These products have been used successfully in the furniture industry for years. Tested units met airline safety standards, with Airbus and Boeing having deployed many for use in their jet aircraft. The low voltage operations are fused for an added measure of safety. Include Keyline's massage/heat units in your comfort seating plans and increase your enjoyment of travel!*

- ▼ **Fingertip controls**
- ▼ **Safe, low voltage operation**
- ▼ **Programmable massaging features**
- ▼ **Adjustable massage speed and intensity**
- ▼ **15 and 30 minute massage timings**
- ▼ **Independent 30 minute heat timer**
